#### Introduction

Welcome to the latest attempt by Tom to use the LATEX family of tools to try to make system notes.

In this version, rather than using just my old macros from back in the day I am incorporating the Bridge Winners style file (with very slight modification). I also have a miniature version of my old macros in bridge-mini.sty that I am including in the project.

I'm using subfiles for the first time, my hope is that having separate files for different chapters of the notes will make management a bit easier, especially using a git repo. My expectation is the "to-do" section will be a list of items that we noted at the table. As things are added to the notes, we can remove them from the to-do list. Perhaps not perfect, but it's a reasonable first pass at managing the project on the whole.

You can reference bids such as  $1 \clubsuit 2 \diamondsuit 3 \heartsuit$  or  $4 \spadesuit$  inline, or even cards such as  $\clubsuit A \diamondsuit K \heartsuit Q \spadesuit J$ . This can be expanded to suit holdings such as  $\spadesuit AKxx$ .
